ENABLING DISCOVERY | POWERING EDUCATION | SHAPING WORKFORCES

A woman with dark hair, wearing a grey turtleneck, is sitting at a desk in a library or study area. She is focused on writing in a notebook with a blue pen. A silver laptop is open to her right. The background shows bookshelves and large windows with a view of a building. The lighting is soft and natural, suggesting a bright but slightly overcast day.

CRUI-CARE: Flipped Journal Author Workflow

Information on Flipped Journals

What is a flipped journal?

A flipped journal is a journal that **originally was hybrid** (allowing you to choose to publish your manuscripts either fully open access or under subscription) that has **become a fully open access journal**.

Under the agreement between Wiley-CRUI, there are some flipped journals in which you can publish **open access at no additional cost**.

There is **special workflow** which we review in the next few slides.

**Steps to follow
when making an
article submission
for flipped
journals**

WILEY

Step 1:

Submit manuscript to Flipped Open Access Journal

Example Journal 1 (Using ScholarOne submission workflow).

Author selects journal to make submission to.

Author is NOT shown eligibility.

Author selects **option 2** to complete the submission.

Submission

- Step 1: Type, Title, & Abstract >
- Step 2: File Upload >
- Step 3: Attributes >
- Step 4: Authors & Institutions >
- Step 5: Reviewers >
- Step 6: Details & Comments >
- Step 7: Review & Submit >

Payment Options
Upon submission of your manuscript, you'll need to select **one** of the **three** payment options.

Please note that funding, discounts and waivers will only be awarded if the **CORRESPONDING** Author qualifies. Therefore it is essential that you have correctly flagged the Corresponding Author on the "Authors & Institutions" submission step.

Depending on the Corresponding Author's institutional affiliation or funding source:

- The Corresponding Author's institution or funder has an existing agreement with Wiley and may pay the Article Publication Charge from this account on behalf of the author, or offer a discounted APC.**
Use our [Account Code Finder Tool](#) to check if the Corresponding Author's institution or funder has an agreement with Wiley that may pay your Article Publication Charge or offer a discounted APC. If their institution or funder is listed, choose this option.
- The Corresponding Author (or their institution) will pay directly or will arrange payment (request an invoice) for the APC.**
Select this option to pay or to arrange payment for the Article Publication Charge. Choose this option if the institution requires an invoice for payment. You can pay by credit card, invoice or proforma. If you choose this option, you may also be eligible for certain discounts from the "Discounts That May Apply" section.
- The Corresponding Author is from a country on the [Wiley Open Access Automatic Waiver List](#) and may be eligible for an automatic waiver of the Article Publication Charge.**
If the Corresponding Author is from a country that appears on the list linked to above, select the Automatic Waiver option.

Choose a Payment Option

1. The Corresponding Author's institution or funder has an existing agreement with Wiley and may pay the Article Publication Charge from this account on behalf of the author, or offer a discounted APC.
Click here to access the [Account Code Finder Tool](#). Follow the directions on the page and enter the institution's code in the field below.

Please enter institution code here:

9 OUT OF 4 CHARACTERS

Enter the Grant/Project Number if the institution or funder requires this information:

2. The Corresponding Author will pay directly or will arrange payment (request an invoice) for the Article Publication Charge. (Select from the dropdown menus below for any applicable discounts.)

3. The Corresponding Author is from a country on the [Wiley Open Access Automatic Waiver List](#) and requests an Automatic Waiver of the Article Publication Charge for this article.

Editorial office comments (internal use):

Example Journal 2 (Using Wiley/ReX submission workflow).

Author selects journal to make submission to.

Author is NOT shown eligibility.

Author reviews online submission and submits.

Open Access

All articles published by Journal of Cosmetic Dermatology are freely available to read, download, and share. To cover the cost of publishing, this journal charges an [Article Publication Charge](#) upon acceptance of the article.

After submission, a quote will be emailed to you reflecting final charges, including any applicable APC coverage, discounts, or waivers. If this submission qualifies for multiple discounts, the highest available discount will apply.

Step 2:

Confirmation of submission

Submission confirmation

- One you have completed the submission you will receive an automated confirmation email stating that the submission has been successful. You will also be notified at this stage that, if accepted for publication, an APC will be charged.
- Once the submission is completed Wiley will work with CRUI-CARE to approve your article if the article is formally accepted for publication.
- Please note final confirmation of CRUI-CARE funding will only be communicated if your article is accepted and meets the full criteria for eligibility. In some circumstances your request may be denied funding and you will need to provide alternative funding to cover the cost of the APC.
